Accessing APC 2023

The screenshot shows the KnowledgeHub eLibrary interface. At the top, there is a navigation bar with 'Courses', 'Webinars', 'eLibrary', 'Log In', and 'Sign Up' buttons. Below this, the breadcrumb 'Home \ eLibrary' is visible. The main heading is 'e-Library'. A search bar contains the text 'APC'. Below the search bar are several filter boxes: 'Language', 'Publication year', 'Publisher', 'Resource type', and 'Topic'. The search results display a card for 'ADULT PRIMARY CARE (APC) CLINICAL TOOL (2023)'. The card includes a small icon of a person with arms raised, the title, and the following details: 'Type: Guides/Guidelines', 'Year: 2023', and 'Topic: Primary Health Care'.

ADULT PRIMARY CARE (APC) CLINICAL TOOL (2023)

The APC clinical tool is a comprehensive, integrated clinical decision support tool for frontline clinicians working in primary health care in South Africa. It forms part of the Ideal Clinic and the Integrated Clinical Service Management programmes. The tool has been updated to combine the latest guidelines and policies, across all clinical programmes in the National Department of Health in South Africa, into a single practical implementation tool. All medications align with the Standard Treatment guidelines and Essential Medicine List.
