HEARX TEAM

.We are privileged and honored to be a part of this amazing program, giving such an amazing service to the learner. From our observations we were happy to see the learners with hearing problems could be assisted as sometimes it was as simple as wax removal that made a HUGE difference in their lives. Thank you to CHAI and HearX Foundation for allowing us to assist at schools as well as our communities.

UMBONO TEAM

Our BIGGEST motivation is seeing the DREAMS of children REVIVED- unable to see previously but can see now, giving them a chance to a BRIGHTER FUTURE!" So together as a team the work that we do gives us purpose to the things that we want to accomplish for OURSELVES and our COMMUNITIES !
